Assignment #3 Marking

Correctness (/6): (-1 per error, generally stopping at average mark 4, but docking more if below average)

Correct results (/3)
   Proper files submitted (.zip and .pdf)
   Runs on SalaryEmpTest
   Runs on HourlyEmpTest
   Runs on StudentTest

Organization(/3)
   Hierarchy / Inheritance
   Code Factored, in correct place
   Used abstract (class/method)
   Protected data, static ID generator

Documentation & Style (/4): (-1 per error, generally stopping at average mark 2, but docking more if below average)

File Headers
      Name & Id
      Date
      Explains file (if someone has not seen the assignment specification, do they know what your file is for?)

Method Headers
      Javadoc format – line description, parameters described, returns described

Variable and Method Names
      Descriptive
      Follow naming conventions

Indentation & space
      Proper indentation
      Easy to read
      Blanks lines used for delineation
      Binary operators have space on either side
      Lines not too long (do not wrap in pdf)

Comments
      Add to the code, don't translate the code
      Adequate inline comments present
